

AbstractTableModel

```
classDiagram
    class AbstractTableModel
    class CSVModel
    class DbModel
    CSVModel --|> AbstractTableModel
    DbModel --|> AbstractTableModel
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'AbstractTableModel'. Below it are two boxes, 'CSVModel' on the left and 'DbModel' on the right. A horizontal line connects the two bottom boxes, with a vertical line extending upwards from its center to the bottom of the 'AbstractTableModel' box, ending in an arrowhead. This indicates that both 'CSVModel' and 'DbModel' inherit from 'AbstractTableModel'.
